

USAG Vicenza/Caserma Ederle Technology Exposition
Thursday, 20 October 2016
Preliminary Exhibitor Listing
Golden Lion Conference Center
1000-1400

B&H Photo, Video, Pro Audio

B&H Photo, Video, Pro Audio is the world's leading source for photo, video, audio, digital imaging, and binoculars/optical equipment. Having multiple GSA schedule contracts, B&H Photo, Video, Pro Audio proudly serves the federal market place locally and globally.

CDW-G, LLC

CDW-G is a leading provider of IT solutions to federal government agencies. Account managers and solution architects offer expertise designing customized solutions, while advanced technology engineers assist customers with implementation and long-term management of those solutions. Areas of focus include data center, networking, unified communications, security, and client computing solutions.

Codan Radio Communications

Codan Radio provides communications solutions that enable our customers to save lives, create security and support peacekeeping worldwide. Trusted by the world's largest mission critical, security, military and humanitarian agencies, we've built our reputation for reliability over 60 years in communications, in some of the toughest conditions on the planet.

CommScope, Inc.

CommScope helps customers in both the private and public sectors to design, build, and manage wired and wireless network infrastructures. Their network infrastructure solutions help customers increase bandwidth, maximize existing capacity, improve network performance and availability, increase energy efficiency, and simplify technology migration.

Dell Inc.

Dell listens to customers and delivers innovative technology and services that give them the power to do more. Forging close partnerships with governments at all levels, Dell helps governments address complicated problems with open, capable, and affordable IT solutions.

EMC Corporation

EMC is a global leader in enabling businesses and service providers to transform their operations and deliver information technology as a service (ITaaS). Fundamental to this transformation is cloud computing. Through innovative products and services, EMC accelerates the journey to cloud computing, helping IT departments to store, manage, protect and analyze their most valuable asset — information — in a more agile, trusted and cost-efficient way.

Extron Electronics

Extron Electronics is a leading manufacturer of professional AV system integration products, including AV control systems, computer-video interfaces, switchers, matrix switchers, distribution amplifiers, audio amplifiers, speakers, twisted pair and fiber optic equipment, videowall processors, video signal processors, AV streaming products, classroom sound field systems, and high resolution cable.

General Dynamics Mission Systems

General Dynamics Mission Systems connects users and protects their communications and information across land, sea, air, space, and cyber domains. Our cyber defense solutions help customers defend networks against dynamic threats by developing, deploying, and sustaining encryption products, systems, and services to protect, detect, monitor, analyze, and respond. On display is our world-class family of cyber defense products, including the TACLANE family, the world's most widely deployed Type 1 network encryptor.

Globecomm

Globecomm is a leading global communications provider serving media, commercial and government markets in over 80 countries. The company employs engineering expertise in consulting services, system design and integration, maritime and mobile communications, media services, and mission critical networks, to provide its customers the optimal solution. Globecomm is dedicated to improving communications and leverages its world class, global network to offer end-to-end, managed service communication's solutions worldwide. Based in Hauppauge, New York, Globecomm also maintains offices in Maryland, New Jersey, Virginia, The Netherlands, South Africa, Germany, United Kingdom, Hong Kong, Singapore, the United Arab Emirates, Afghanistan and Indonesia. For more information, please visit www.globecomm.com.

HARMAN

HARMAN Professional is the world's largest audio, video, lighting and control company with brands including AKG, AMX, BSS and JBL Professional. The Government division provides reliable, secure and government certified solutions to support a wide range of government and military agencies around the globe.

Hughes

Hughes Network Systems, LLC (Hughes) is the world's leading provider of satellite broadband, delivering innovative network technologies, managed services, and solutions for enterprises and governments globally. Headquartered outside Washington, D.C., in Germantown, Maryland, Hughes operates sales and support offices worldwide, and is a wholly owned subsidiary of EchoStar Corporation.

Integration Technologies Group, Inc.

Integration Technologies Group (ITG) was founded in 1984 to develop and provide IT systems and services for U.S. Government agencies. ITG is a best practices IT company that supports federal, commercial, and nonprofit organizations over a global client base.

Klas Telecom

Founded in 1991, Klas Telecom is an engineering and design company with over 23 years of experience developing highly capable, lightweight communications solutions for use in austere environments where low size, weight, power (SWaP), and ruggedization are required.

KVG, LLC

KVG Supply provides an authorized web-based platform for GPC holders and Contracting Officers to quickly purchase office supplies for U.S. activities located in the United Kingdom, Germany, Belgium, Italy, and the Netherlands. KVG Supply offers VAT exempt, discounted prices, and three-day, door-to-door delivery anywhere in Europe. U.S. sized paper, writing instruments, toner and inkjet cartridges, calculators, binding and filing supplies, computer accessories, mailing and shipping supplies, visual communications, and shredders.

Lind Electronics

Lind Electronics manufactures a wide variety of ruggedized AC / DC and DC / DC power adapters, battery chargers, battery protection devices and customized cables that are designed to be used with rugged computers and other mobile devices. Some of our ruggedized power adapters and customized cables are Mil Spec compliant. We have a dependable product with a quick order to ship time. Our Electrical Engineering Design Department has the capability of producing engineering samples upon a customers' request and need.

Motorola Solutions, Inc.

Motorola Solutions is a leading provider of mission-critical communication solutions for federal customers. Federal agencies trust our secure, interoperable communications solutions to perform in the harshest environments, drive actionable intelligence across traditional collaboration barriers and accelerate efficiency, even when resources are limited.

NetScout Systems, Inc.

NetScout Systems, Inc. is the market leader in service assurance solutions that enable government agencies and private enterprises to assure the quality of the user experience for business and mobile services. NetScout's technology helps proactively manage service delivery and identify performance problems to enable faster resolution and minimize business disruption.

OneVision Solutions

OneVision Solutions (OVS) is a certified small business specialized in video network infrastructure, custom room integration, managed services, and support of all VTC systems. OVS has specific VTC experience in both secure and non-secure networks. As a Cisco Master Telepresence partner and Polycom CSP reseller, OVS is authorized on GSA schedules for multiple manufacturers in the industry.

PacStar

PacStar is a leader in rapid-deployment communications solutions for first-in communicators. Comprised of IP-based network, security, voice, and SATCOM equipment. PacStar solutions provide all the communications capabilities in-theatre teams need to access various networks, such as NIPRNet, SIPRNet, JWICS, CENTRIXS, and BICES. Our systems are light-weight, and managed by PacStar's industry-leading IQ-Core Software to simplify system set-up, management, and configuration.

Viavi Solutions

Viavi Solutions test instruments, software, and expertise ensure that all networks - copper, fiber, and wireless - are always working at their best. From SATCOM to LTE to 100G, Viavi Solutions network monitoring and testing solutions are used to turn up, operate, and maintain the JIE.

World Wide Technology Advanced Solutions

World Wide Technology (WWT) is leading systems integrator and supply chain solutions provider that brings an innovative and proven approach to how organizations around the globe evaluate, architect, and implement technology. Our customers have hands-on access to cutting-edge data center, networking, security, and collaboration products in our Advanced Technology Center; technical expertise from our expansive team of engineering resources; and accelerated global product delivery, powered by a sophisticated supply chain management infrastructure. By working with a financially strong, privately held systems integrator that ranks as a top tier of Cisco, HP, EMC, NetApp, VMware, and Citrix, our customers realize the benefits of saving time and money while significantly minimizing risk.
